# Doors & Windows

## Casement Windows

This simple and functional window design is ideal for all types of property. It is the most popular and widely used style of window in Ireland. These windows open-out and have top-hung opening or side hung opening options, providing excellent ventilation and security.

## Tilt and Turn windows

This sophisticated window style is becoming increasingly popular. The innovative tilt and turn mechanism enables the window to be opened inwards from the top for effective ventilation or from the side for safe and easy cleaning from within your home.

## Vertical sliders

Vertical sliding PVC-U sash windows combine traditional Georgian charm with modern PVC-U performance. The window offers all the low-maintenance, energy efficient, high-security benefits of PVC-U in a window style that captures the charm, elegance and sophistication of traditional sliding sash windows.

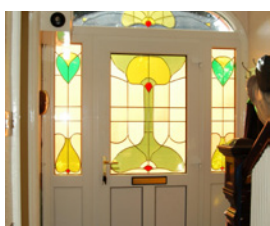

## Bay and Bow windows

Bay and bow windows open up rooms to the outdoors, creating a feeling of space and light. This effect can be enhanced by installing slim-framed windows that maximise the glazing area and flood the home with natural light.

## Bi-Fold doors

These contemporary, elegant, concertina type doors add a real "wow" factor to any home. Bi-fold doors offer versatility in fold options, you can open up an entire area during warm summer days or partially fold them back. When closed, bi-fold doors offer shelter with no reduction in natural light.

## Residential doors

First impressions count. With the wide range of doors available you can be certain of finding the right door for your home. Our doors can be open-in or open-out and also come in a range of colours as well as the standard woodgrained finishes.

## French doors

French doors offer a classic appearance with all the benefits of contemporary PVC-U double-glazing. For a smooth, seamless transition between outdoors and indoors, the design can include a low threshold for easy access to your garden.

## Sliding doors

Maximise the view of outside with our range of versatile and practical sliding doors. They make the ideal entry solution in any situation, with easy glide rollers and manufactured to the highest quality. This means they will stand the test of time and continue to add value to your home.

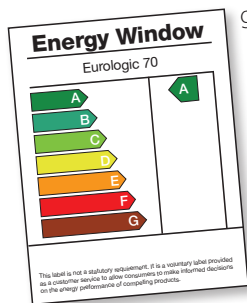

# Quality First

## 'A' Rated

The Eurologik 70 Premium PVC-U casement windows are 'A' rated for energy efficiency in residential properties, achieving the highest rating in the Building Research Establishment (BRE) Green guide to Specification (June 2008).

## High-security system

Eurologik windows and doors are fitted with high-security locking and are internally beaded, giving you the peace of mind that your home is well protected against intruders.

## Low Maintenance

Eurologik 70 PVC-U windows and doors are durable and robust, giving long-life, low-maintenance performance, with no need for painting or other treatments.

## Built-in Thermal Efficiency

Eurologik 70 Premium window frames feature an advanced multi-chambered cross-section which helps to prevent heat loss and enhance thermal efficiency. This means we can create windows that meet the highest energy efficiency ratings.

## Colour your world

Whether you want simple understated windows, a natural wooden look or want to make a bold statement with bright colours that set your home apart, we offer the colour options and finishes to suit your preferences.

Ask about our special optional finishes e.g. *red, blue, green*, etc. Some colours may have a longer lead time.
